

Introducing the First Adult Education Curriculum Focused on Life!

- * The biblical basis for a commitment to life (historical, biblical overview)
- * What abortion is and how it used in our society (abortion)
- * The effects of abortion on people and society (post-abortion)
- * How we need to respond to unexpected pregnancies (adoption)
- * What we need to say about sex (abstinence)
- * How euthanasia and assisted suicide further erodes the valuing of human life
- * What challenges biotechnology presents (stem cell research)
- * Practical ways that we can affirm life (action plan)

Anglicans for Life

is talking about life...

PROJECT LIFE is an 8-week, DVD adult education series produced by Anglicans for Life that provides a comprehensive snapshot of the Gospel of Life and the Culture of Death!

Every Anglican Church needs to talk about Life issues and incorporate this curriculum into its adult education schedule!

405 Frederick Avenue Sewickley, PA 15143-1522

made in the image of God

THINGS WE DON'T TALK ABOUT IN CHURCH

SEX
ABSTINENCE
ABORTION
POST-ABORTION SYNDROME
ADOPTION
EUTHANASIA
ASSISTED SUICIDE
STEM CELL RESEARCH
CLONING
THE SANCTITY OF HUMAN LIFE

Until now...

WHAT TO EXPECT FROM EACH SESSION...

Because **PROJECT LIFE** emphasizes more than just learning facts, we have designed a number of activities for each week.

Opening Prayer and Activity

20-Minute DVD Presentation

(featuring Georgette Forney and special guests)

Group Reflection

Closing Thoughts and Prayers

Personal Study and Reflection

Anglicans for Life *is talking about life...*

PROJECT LIFE *Goals*

1. You will understand the biblical basis for affirming Life from conception to natural death.
2. You will be able to identify how our society often teaches a contradictory message to the valuing of Life from conception to natural death.
3. You will identify how the sanctity of Life is threatened daily in big and small ways in our culture.
4. You will be able to define abortion and describe how it affects the unborn child, the women involved, and others.
5. You will be able to identify helpful approaches to dealing with an unexpected pregnancy, including how adoption works today.
6. You will be able to express what Christian parents and the church need to affirm about sex.
7. You will be able to define euthanasia and assisted suicide as efforts to devalue certain human lives.
8. You will be able to identify some challenges posed by embryonic stem cell research and human cloning..
9. You will be able to give examples of ways that Christians, historically and currently, have affirmed Life from conception to natural death.

When you finish the **PROJECT LIFE** series, we pray that you and your parish will be better informed, your heart for Life issues will be strengthened and that you will be equipped to witness to the importance of every human life in God's eyes and make a difference *For Life* in your church and your community.
